dōTERRA®

THE dōTERRA® STORY

In the spring of 2008, a group of health-care and business professionals who shared profound personal experiences with the life-enhancing benefits of essential oils came together with a common vision of bringing a new standard of essential oils to the world. They wanted something different that would appeal to all people, from those who knew nothing of essential oils to those who were considered experts in the field.

They asked themselves some defining questions: “What if we could provide the world with a new and powerful wellness alternative?” “What if we could provide this new level of wellness through a mainstream approach to essential oils?” “What if we could source, test, and manufacture a higher quality of essential oil—more pure and more potent than any other oil available on the market today?” “What if we, in the most professional manner, could partner with major hospitals, doctors, scientists, and opinion leaders to provide the most compelling authentication of essential oils on the planet?”

They concluded that, with the hard work and commitment of others who had a similar passion and vision, they could and would create a new paradigm for essential oils. With that conviction, they organized a company and named it dōTERRA, a Latin derivative meaning “Gift of the Earth.” The first dōTERRA offering of 25 single oils and 10 oil blends was introduced for sale on April 25, 2008, to the acclaim of essential oil experts and product enthusiasts who immediately recognized the superior quality of dōTERRA therapeutic-grade essential oils.

dōTERRA has continued to add wellness products and to expand their essential oils offering as the company has enjoyed tremendous growth since its beginning.

OUR MISSION

WE AT dōTERRA ARE COMMITTED TO SHARING THE LIFE-ENHANCING BENEFITS OF THERAPEUTIC-GRADE ESSENTIAL OILS WITH THE WORLD. WE WILL DO THIS BY:

- Discovering and developing the world’s highest-quality essential oil products through a leveraged network of highly-educated and experienced botanists, chemists, health scientists, and health-care professionals.
- Producing our essential oil products to the highest standard of quality, purity, and safety used in the industry—CPTG Certified Pure Therapeutic Grade®.
- Distributing our products through Wellness Advocates who, working from home, introduce, educate, and sell dōTERRA wellness products locally through person-to-person contact and globally through personalized web shopping sites.
- Providing educational opportunities for all people interested in learning how therapeutic-grade essential oils can be used as a self-care wellness alternative.
- Bringing together health-care professionals of traditional and alternative medicine to encourage further study and application of essential oils in modern health-care practices.

What are **ESSENTIAL OILS?**

Essential oils are natural aromatic compounds found in the seeds, bark, stems, roots, flowers, and other parts of plants. They can be both beautifully and powerfully fragrant. If you have ever enjoyed the gift of a rose, a walk by a field of lavender, or the smell of freshly cut mint, you have experienced the aromatic qualities of essential oils. Essential oils can lift the mood, calm the senses, and elicit powerful emotional responses. Yet the use of essential oils goes well beyond their fragrant appeal.

Essential oils have been used throughout history in many cultures for their health-promoting properties. Modern trends toward more holistic approaches to self care and growing scientific validation of alternative health practices are driving a rediscovery of the profound health benefits of essential oils. Many have powerful cleansing properties. Their unique chemical structure allows them to deliver targeted benefits through topical application. Certain oils may be used as dietary aids to promote vitality and well-being.

Extraction Methods

Essential oils are most often extracted via a low-heat steam distillation process in which steam is circulated under pressure through plant material, liberating the essential oils into the steam. As the steam mixture cools, the water and oils are separated and the oil is collected in its pure form. To ensure the highest quality oil extract of correct chemical composition, temperature and pressure must be monitored very closely. Too little heat and pressure will not release the valuable oil; too much can fracture an extract's delicate chemical composition and alter its potency.

Equally important to the carefully controlled extraction process, the meticulous selection of correct plant species and plant parts harvested at the perfect moment when their essential oil compounds are most concentrated, is also required for a quality therapeutic-grade essential oil extract. This complex process is as much an art form as it is a science and requires experienced growers and distillers working together to ensure a superior product.

CPTG Certified Pure Therapeutic Grade®

dōTERRA® CPTG Certified Pure Therapeutic Grade essential oils are pure, natural, aromatic compounds carefully extracted from plants. They do not contain fillers or artificial ingredients that would dilute their active qualities and are free of contaminants or other chemical residues.

As important as it is to keep contaminants out of our oils, assuring the presence of the oils' active compounds at the right levels is necessary to guarantee safety and effectiveness. Many oils claim to be therapeutic grade, and some may be pure, but few are subjected to rigorous testing standards for chemical composition. dōTERRA CPTG Certified Pure Therapeutic Grade essential oils are cross tested using Mass Spectrometry and Gas Chromatography to ensure both the extract purity and composition potency of each batch.

dōTERRA works closely with a global network of leading essential oil chemists and growers to select botanicals of the correct species, grown in ideal environments, and carefully harvested at the right time. The aromatic compounds of the plants are skillfully extracted by experienced distillers and subjected to chemical analysis to ensure purity and composition. dōTERRA CPTG Certified Pure Therapeutic Grade essential oils represent the safest and most beneficial oils available in the world today.

CPTG Certified Pure Therapeutic Grade®

Most tested, most trusted.

Equally stringent standards of safety and efficacy are applied to all dōTERRA Essential Wellness products. Guided by our Scientific Advisory Board, dōTERRA uses only top development and manufacturing partners who maintain ®GMP certification and enjoy industry reputation for superior innovation and quality. Each dōTERRA product is guaranteed to exceed customer satisfaction and performance expectations.

Uses

Essential oils are used for a very wide range of emotional and physical wellness applications. They can be used singly or in complex blends depending on user experience and desired benefit. Essential oils are usually administered by one of three methods: diffused aromatically, applied topically to the skin, or taken internally as dietary supplements. Using essential oils can be both profoundly simple and life changing at the same time. Working with someone who has used essential oils before will help first-time users have a more beneficial and enjoyable experience.

Essential oils are naturally safe and have few, if any, undesirable side effects when used as directed. They are, however, powerfully concentrated and should be used with care. Be sure to use only pure essential oils and follow all label warnings and instructions. Essential oils should never be used in the eyes or inside the ear canal. If redness or irritation occurs when using essential oils topically, apply a vegetable oil such as Fractionated Coconut Oil to the affected area—water will not dilute essential oils. Consult your physician before using essential oils if you are pregnant or under a doctor's care.

Look for the following symbols by the essential oil product descriptions in this product guide to help you with your oil selection. (Use instructions and appropriate cautions included on individual essential oil labels.)

Please note, some products can be used in multiple ways. Statements with asterisks refer to internal use of products.

The dōTERRA® network of botanical growers and distillers spans the globe from Italy to Madagascar, India to Corsica. Only the purest and most potent essential oils meet our strict CPTG Certified Pure Therapeutic Grade® standards. Accept nothing less from your wellness professional or for your family.

APPLICATION METHODS

Where do I BEGIN?

Using essential oils is intuitively simple and highly satisfying. However, the many oils available with their numberless combinations and wellness applications can be a bit overwhelming to beginners. As a simple first step on your journey with essential oils, we recommend a trio of Lavender, Lemon, and Peppermint. Three of our most popular oils, they will provide you and your family a compelling experience with the life-enhancing properties of essential oils.

"I knew almost immediately after uncapping the lid that Juniper Berry would become one of my favorite essential oils. When I am under stress, it is my go to oil to diffuse. The crisp smell of nature compacted into a small glass bottle doesn't get any better!"

Caitlyn C., Chester, Virginia

"I use Slim & Sassy oil blend, TrimShake, and the dōTERRA Lifelong Vitality Pack® daily. I have more energy to do my daily responsibilities. I have self-esteem to hold conversations about the oils I use. I'm not ashamed to look people in the eye when talking to them about wellness now that I'm doing it myself!"
